## WAIVER

### NEVADA STATE BOARD OF LANDSCAPE ARCHITECTURE

Wednesday September 2, 2020, at 9:00 AM

The Nevada open Meeting Law, NRS 241.033(1) (see below), states that the "public body shall not hold a meeting to consider the character, alleged misconduct, professional competence, or physical or mental health of any person, unless it has given written notice to that person of the time and place of the meeting." Such written notice must either be (a) delivered personally to that person at least five (5) working days before the meeting, or (b) sent by certified mail to the last known address of that person at least twenty-one (21) working days before the meeting. I hereby acknowledge my right to be noticed under NRS 241.033, however, I hereby waive such notice so that the Nevada State Board of Landscape Architecture may discuss and consider my qualifications as a Landscape Architect at its next meet. I understand the Nevada State Board of Landscape Architecture meeting is scheduled to commence at 9:00 AM on September 2, 2020

I further understand that the Nevada State Board of Landscape Architecture meeting is scheduled for Wednesday September 2, 2020 at 9:00 a.m., Via Zoom meeting scheduled Sept 2, 2020 09:00 AM Pacific Time (US and Canada) Zoom Meeting <https://us02web.zoom.us/j/6555590472>

#### NRS 241.033

Meeting to consider character, misconduct, competence or health of person or to consider appeal of results of examination: Written notice to person required; exception: public body required to allow person whose character, misconduct, competence or health is to be considered to attend with representative and to present evidence; attendance of additional persons; copy of record.

1. A public body shall not hold a meeting to consider the character, alleged misconduct, professional competence, or physical or mental health of any person or to consider an appeal by a person of the results of an examination conducted by or on behalf of the public body unless it has:
  - (a) Given written notice to that person of the time and place of the meeting; and
  - (b) Received proof of service of the notice.
2. The written notice required pursuant to subsection 1:
  - (a) Except as otherwise provided in subsection 3, must be:
    - (1) Delivered personally to that person at least 5 working days before the meeting; or
    - (2) Sent by certified mail to the last known address of that person at least 21 working days before the meeting.
  - (b) May, with respect to a meeting to consider the character, alleged misconduct, professional competence, or physical or mental health of a person, include an informational statement setting forth that the public body may, without further notice, take administrative action against the person if the public body determines that such administrative action is warranted after considering the character, alleged misconduct, professional competence, or physical or mental health of the person.
  - (c) Must include:
    - (1) A list of the general topics concerning the person that will be considered by the public body during the closed meeting; and
    - (2) A statement of the provisions of subsection 4, if applicable.
3. The Nevada Athletic Commission is exempt from the requirements of subparagraphs (1) and (2) of paragraph (b) of subsection 2, but must give written notice of the time and place of the meeting and must receive proof of service of the notice before the meeting may be held.
4. If a public body holds a closed meeting or closes a portion of a meeting to consider the character, alleged misconduct, professional competence, or physical or mental health of a person, the public body must allow that person to:
  - (a) Attend the closed meeting or that portion of the closed meeting during which his character, alleged misconduct, professional competence, or physical or mental health is considered;
  - (b) Have an attorney or other representative of his choosing present with him during the closed meeting; and
  - (c) Present written evidence, provide testimony and present witnesses relating to his character, alleged misconduct, professional competence, or physical or mental health to the public body during the closed meeting.
5. Except as otherwise provided in subsection 4, with regard to the attendance of persons other than members of the public body and the person whose character, alleged misconduct, professional competence, physical or mental health or appeal of the results of an examination is considered, the chairman of the public body may at any time before or during a closed meeting:
  - (a) Determine which additional persons, if any, are allowed to attend the closed meeting or portion thereof; or
  - (b) Allow the members of the public body to determine, by majority vote, which additional persons, if any, are allowed to attend the closed meeting or portion thereof.
6. A public body shall provide a copy of any record of a closed meeting prepared pursuant to NRS 241.035, upon the request of any person who received written notice of the closed meeting pursuant to subsection 1.
7. For the purposes of this section, casual or tangential references to a person or the name of a person during a closed meeting do not constitute consideration of the character, alleged misconduct, professional competence, or physical or mental health of the person.

Re: Licensure

Dear Board Members:

Hello, my name is John Resly.

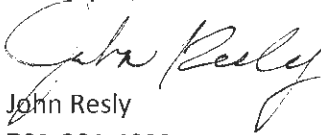

I am requesting the opportunity to sit for the L.A.R.E. I will be applying based on my 25 years of work experience in the landscape industry.

During my time in the profession, I've gained valuable work experience in landscape management/horticulture at the Riviera Hotel and Casino, CSN Instructor, several landscape architectural firms and worked directly for large developers such as Del Webb and Focus Property Group. I assisted in the development of master planned communities such as Sun City, Anthem, Aliante, Providence, Mountains Edge and Inspirada (Village 1) to name a few.

I've provided my resume, letters of recommendation, which are stamped and signed on the required forms and samples of my work for your consideration. You will also find a check for the amount of \$175.00 for the review fee.

I look forward to your positive response.

Thank you,

John Resly

Re: Letter of Reference  
Mr. John Resly

Dear Board Members:

I first met John Resly when he was a landscape design student attending College of Southern Nevada in the mid 1990's at which time I was the director and fulltime professor of Ornamental Horticulture. John was pursuing a Certificate of Achievement in Landscape Design and was a student in several courses that I taught. In 2001 I hired John as a College of Southern Nevada adjunct faculty member in the Ornamental Horticulture Department to instruct lecture/lab courses in CAD for Landscape Design. John taught the Landscape CAD courses for several years at CSN eventually moving to the CSN CADD Technology Program where he continues today as an adjunct faculty member teaching AutoCAD and Architecture Design Technology.

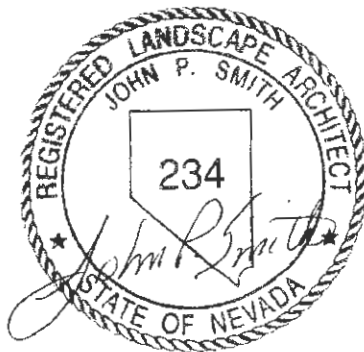

Prior to beginning his formal education at CSN John had already gained several years of valuable experience in landscape operations involving landscape management to in-house design build projects for the Horticulture Department at the Riviera Hotel and Casino in Las Vegas, Nevada. Since 1997 John has worked as a landscape designer for several landscape architectural firms as well as prominent developers in the Las Vegas Valley. During this time John and I have remained friends and colleagues.

John's extensive background in landscape management, landscape design/architecture, southwest horticulture, and as a college instructor/educator for over thirty years has provided him with the knowledge and skills to qualify as a registered Landscape Architect in the State of Nevada. John has always conducted himself as a professional and of good moral character and I am honored to write a letter of recommendation for his consideration for qualification as a registered landscape architect.

Respectfully submitted,

John P. Smith  
Horticulturist, Certified Arborist,  
NV Registered Landscape Architect  
NV Pest Control Principal Licensee

July 13, 2020

To Whom It May Concern:

Mr. John Resly was my coworker at Del Webb Corporation from December 1999 until I left the firm at the end August, 2002. During that period, Mr. Resly repeatedly proved his value to the Landscape Design and Development Department with outstanding quality AutoCadd drawings, with Plan, Elevation, Details, and 3D presentations. Mr. Resly standardized the presentation of our work, and made the program user friendly; specifically, after a couple introductory lessons, I was able to produce a plan without help using Mr. Resly's templates. This program was developed while John continued attending classes after work hours.

Further, as an example of Mr. Resly's dedication, He became a member of CCSN's Adjunct Faculty, in the Horticulture department, teaching "Autocad for Landscape". I enrolled in the advanced class and was impressed by John's ability to find solutions to questions and offer advice on working it out without saying this is the only solution.

Throughout the past 20 years, John and I remained in contact both professionally and socially. His tenure with Focus Development has many parks and streetscapes projects completed and provide visual assets to the development projects with which they are associated. In spite of Mr. Resly not having completed a structured University program in Landscape Architecture, his knowledge and skills are second only to mine.

I believe John Resly has obtained the knowledge and skills necessary to sit for the LARE and to develop an in-depth practice of Landscape Architecture.

To Whom it may concern,

I worked with John Resly at Poggemeyer Design Group for approximately 2 years, from 2003 to 2005. John always worked in a professional manner and was extremely proficient in AutoCad. John has a very good working knowledge of landscape issues relating to hardscape, planting and irrigation design.

Recently I have paid John for drafting services in conjunction with my landscape architecture business. John has performed well and promptly.

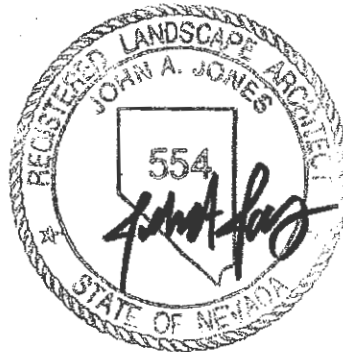

If you have any questions, please feel free to contact me.

Thank you.

Sincerely,

*John Jones*

To whom it may concern:

Re: **RESLY, John**

To Whom It May Concern:

I am extremely pleased to endorse John Resly without reservation as an extremely ethical and capable individual worthy of consideration with respect to the granting of a professional license relative to the discipline of Landscape Architecture. In my capacity as a professional architect on the staff of Encompass Studio I have been afforded the good fortune to work with John on several occasions over the past three years, most notably for the renovation of the central 'Park' feature of Town Square Retail Development here in Las Vegas, as well as a significant renovation of the generously landscaped parking feature associated with a large office complex for Omninet Group/Developers. These two projects were completed extremely satisfactorily and I found John to be an extremely agile co-designer.

Beyond this, in all instances I have found John's professional attitude, demeanor and knowledge of landscape materials and associated componentry to be first rate when I have sought sage practical experience in a Landscape design/ build capacity. His hands-on manner has been a genuine 'plus' in the process of affording our clients a much-valued expert level of service.

Should you wish to contact me to further discuss John's capabilities please do not hesitate to do so.

Sincerely,

Dante Amato, AIA  
Project Architect/Director

To Whom It May Concern:

I have known John Resly since he started working for Focus Property Group (Focus) in October 2005 as the Director of Landscape Operations.

During his full-time tenure at Focus through October 2017 (Focus has continued to intermittently use his services as a consultant), John was responsible for managing all aspects of the landscape design efforts associated with the development of the many Focus land development projects, including the Providence, Mountain's Edge and Inspirada (Village I) master-planned communities. John proved himself to be talented and technically skilled in the landscape design arena and was valued for his creativity and keen eye for detail.

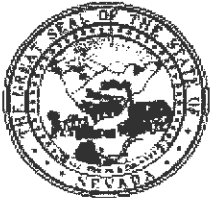

John is a professional with a personality and demeanor that is appreciated by all and would be a great addition to the professional landscape architecture community.

It is my pleasure to offer my unreserved recommendation for John Resly to be accepted for licensure by the Nevada State Board of Landscape Architecture.

Sincerely,

  
Lenny Badger, P.E.

## LETTER OF REFERENCE

August 10, 2020

Nevada State Board of Landscape Architecture  
P.O. Box 33413  
Reno, Nevada 89533

Dear Board Members:

As Chief Operating Officer and General Counsel for Par 3 Landscape & Maintenance, Inc., I have had the privilege of working with John over the last 3 years. He is everything you could ask for in an employee and co-worker but more importantly is an outstanding person with exceptional integrity.

John has been an integral part of the growth and professionalization of our design and enhancement division. His experience designing large scale projects for some of the largest land developers and home builders in Las Vegas gave us immediate credibility and helped fuel tremendous growth in our enhancement and construction operations. John's expertise with CAD and photoshop has provided us additional technical acumen along with visually appealing renderings that allow our customers to get an accurate vision of the finished product before we ever break ground on the project.

Our employees enjoy working with John because of the quality of his work, his strong work ethic, and his pleasant demeanor. He's also a team player that doesn't feel like his job is done once his design is complete; he always follows up on jobs in the field and regularly provides input and revisions to ensure we are setting the standard for quality in the landscape industry.

I am excited for John to pursue to finally pursue his landscape architect license. I knew from the time I hired him that it was one of his career goals but he has always been so busy in his career that he has never made time to see the application process all the way through. I have encouraged him to do it, not only to achieve one of his long-term goals, but to validate the exceptional work he has done throughout his career.

I believe that John's extensive experience in the field in addition to his academic training qualify him to join the select group of licensed landscape architects here in Nevada; I have the utmost confidence that he will represent your profession admirably. I am happy to give him my highest recommendation and would gladly go over any additional details should you wish to discuss it further. I can be reached on my cell (702)501-7850 or email at [kam@par3landscape.com](mailto:kam@par3landscape.com).

Sincerely,

Kam Brian, Esq.  
Chief Operating Officer

Reno, NV 89511

February 2, 2016

Dear Sir or Ms.;

I have been licensed in the State of Nevada since 1998 (License Number 517) and have known John Resly for an equal amount of time. John has prepared many landscape plans under my direction. He is a skilled landscape designer, AutoCad technician and computer graphic artist.

He is also an exceptional manager and for many years he has been in positions of management in both landscape architecture and landscape construction.

John Resly's outstanding skills in landscape design, graphics and management are equal to any licensed landscape architects and exceed most.

I believe he is an outstanding candidate for licensure.

Thank you.

Respectfully,

Thomas Dellaquila, ASLA  
*President, DesignScapes Inc.*

*Focus Property Group Director of Landscape Operations John Resly*

## Saving water takes more than vision. It takes a plan.

When Focus Property Group planned Knickerbocker Park in the Providence master plan in northwest Las Vegas, they knew they wanted to make it beautiful. But they tapped Director of Landscape Operations John Resly to make it water smart, too.

The park is a \$2.2 million, 15-acre landscape that includes play areas, a jogging path and a dog park. But being water smart was just as important as being fun. The finished product requires minimal water, but still provides a shady and colorful environment. And with John's expertise, it saves nearly 30 million gallons a year.

Learn what your company can do to save water.  
Go to [snwa.com](http://snwa.com) or call our conservation specialists at 702.862.3736.

Re: Letter of Reference  
Mr. John Resly

Dear Board Members:

I first met John Resly when he was a landscape design student attending College of Southern Nevada in the mid 1990's at which time I was the director and fulltime professor of Ornamental Horticulture. John was pursuing a Certificate of Achievement in Landscape Design and was a student in several courses that I taught. In 2001 I hired John as a College of Southern Nevada adjunct faculty member in the Ornamental Horticulture Department to instruct lecture/lab courses in CAD for Landscape Design. John taught the Landscape CAD courses for several years at CSN eventually moving to the CSN CADD Technology Program where he continues today as an adjunct faculty member teaching AutoCAD and Architecture Design Technology.

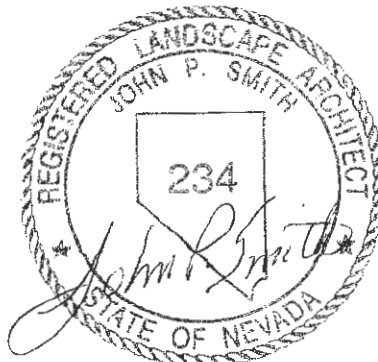

Prior to beginning his formal education at CSN John had already gained several years of valuable experience in landscape operations involving landscape management to in-house design build projects for the Horticulture Department at the Riviera Hotel and Casino in Las Vegas, Nevada. Since 1997 John has worked as a landscape designer for several landscape architectural firms as well as prominent developers in the Las Vegas Valley. During this time John and I have remained friends and colleagues.

John's extensive background in landscape management, landscape design/architecture, southwest horticulture, and as a college instructor/educator for over thirty years has provided him with the knowledge and skills to qualify as a registered Landscape Architect in the State of Nevada. John has always conducted himself as a professional and of good moral character and I am honored to write a letter of recommendation for his consideration for qualification as a registered landscape architect.

Respectfully submitted,

John P. Smith  
Horticulturist, Certified Arborist,  
NV Registered Landscape Architect  
NV Pest Control Principal Licensee

## NOTES

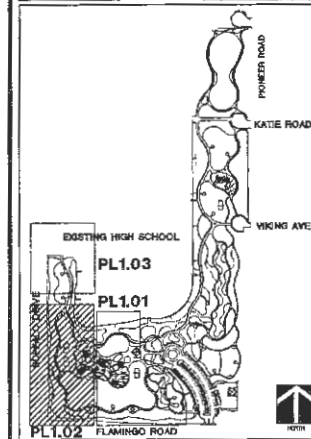

- 1) All landscape areas shall receive a 2" layer 3/4" Rock Mulch unless other wise indicated per plan. Color shall be Autumn Mist by Cheyenne Rock or approved equivalent. See GP1.01 and GP1.02 for rock mulch/decomposed granite groundcovers.
- 2) ANA= Arizona Nursery Association
- 3) ANSI= American Standard for Nursery Stock
- 4) Root guards are required for all trees planted within 5' of sidewalks and all other hardscape
- 5) Keep trees a minimum of 3' from back of sidewalk and all other hardscape. No obstructions permitted between 2 feet and 7 feet above grade within Site Visibility Restriction Easement. However, tree trunks within SVRE are permissible. All trees, if necessary in Site Visibility Restriction Easement shall branch above 6'. Max. height for shrubs is 24". Trees in Site Visibility Restriction Easement shall be pruned so that all branches and foliage are above 7'.

### NOTES

- 1) OWNER RESERVES THE RIGHT TO SUBSTITUTE PLANT MATERIALS AT THEIR DISCRETION.
- 2) ALL LANDSCAPE AREAS SHALL RECEIVE A 2" LAYER 3/4" MINUS VISTA GOLD ROCK MULCH UNLESS OTHERWISE INDICATED PER PLAN.
- 3) ROOT GUARDS ARE REQUIRED FOR ALL TREES PLANTED WITHIN 5' OF SIDEWALKS AND ALL OTHER HARDSCAPE.
- 4) ANSI = AMERICAN STANDARD FOR NURSERY STOCK
- 5) ANA = ARIZONA NURSERY ASSOCIATION
- 6) KEEP TREES A MINIMUM OF 3' FROM BACK OF SIDEWALK AND ALL OTHER HARDSCAPE. NO OBSTRUCTIONS PERMITTED BETWEEN 2 FEET AND 1 FEET ABOVE GRADE WITHIN SITE VISIBILITY RESTRICTION EASEMENT. HOWEVER, TREE TRUNKS WITHIN 5' VIRE ARE PERMISSIBLE. ALL TREES, IF NECESSARY, IN SITE VISIBILITY RESTRICTION EASEMENT SHALL BRANCH ABOVE 6'. MAX HEIGHT FOR SHRUBS IS 24". TREES IN SITE VISIBILITY RESTRICTION EASEMENT SHALL BE PRUNED SO THAT ALL BRANCHES AND FOLIAGE ARE ABOVE 1'.
- 7) CONTRACTOR TO PROVIDE A FULLY AUTOMATED DRIP IRRIGATION SYSTEM. TREES, SHRUBS AND GROUND COVERS SHALL BE ON SEPARATE VALVES.

### NOTES

- 1) OWNER RESERVES THE RIGHT TO SUBSTITUTE PLANT MATERIALS AT THEIR DISCRETION.
- 2) ALL LANDSCAPE AREAS SHALL RECEIVE A 2" LAYER 3/4" ROCK MULCH UNLESS OTHERWISE INDICATED PER PLAN.
- 3) ROOT GUARDS ARE REQUIRED FOR ALL TREES PLANTED WITHIN 5' OF SIDEWALKS AND ALL OTHER HARDSCAPE.
- 4) ANSI = AMERICAN STANDARD FOR NURSERY STOCK
- 5) ANA = ARIZONA NURSERY ASSOCIATION
- 6) KEEP TREES A MINIMUM OF 3' FROM BACK OF SIDEWALK AND ALL OTHER HARDSCAPE. NO OBSTRUCTIONS PERMITTED BETWEEN 2 FEET AND 1 FEET ABOVE GRADE WITHIN SITE VISIBILITY RESTRICTION EASEMENT. HOWEVER, TREE TRUNKS WITHIN 5' ARE PERMISSIBLE. ALL TREES, IF NECESSARY, IN SITE VISIBILITY RESTRICTION EASEMENT SHALL BRANCH ABOVE 6' MAX. HEIGHT FOR SHRUBS IS 24". TREES IN SITE VISIBILITY RESTRICTION EASEMENT SHALL BE PRUNED SO THAT ALL BRANCHES AND FOLIAGE ARE ABOVE 7'.
- 7) CONTRACTOR TO PROVIDE A FULLY AUTOMATED DRIP IRRIGATION SYSTEM. TREES, SHRUBS AND GROUND COVERS SHALL BE ON SEPARATE VALVES.

# ENDURAFLEX MANUFACTURER Poured in Place Safety Surfacing

## Manufacturer's Specifications

This document provides the specifications for a poured in place safety surfacing system composed of a wearing layer, upper membrane and an underlying impact attenuation cushion layer. There are variations in the final specifications as required by the Client.

### PART 1 - GENERAL

#### 1) Work Included

Provide all labor, materials, and tools necessary for the complete installation of a poured in place safety surfacing system as outlined in these specifications. The system shall consist of but not necessarily be limited to the following:

- Section includes resilient playground surfacing poured-in-place system.
- Related work: Playground equipment and resilient playground surfacing sub base.
- Quality Assurance: Manufacturer shall have manufacturer and installed playground poured-in-place safety surfacing for a minimum of 3 years, and meet current ASTM F 1292-09 Test Criteria. The installation of the poured-in-place product shall be completed by FLEXGROUND, LLC. Manufacturer's detailed installation procedures shall be submitted to the Architect and made part of the Bid Specifications.

#### 2) Submittals

Prospective manufacturers and/or installers of the poured in place safety surfacing system shall be required to comply with the following:

- The manufacturer must be experienced in the manufacturing of a poured in place safety surfacing system and provide references of five (5) specific installations in the last three (3) years.
- The installer must provide competent workmen skilled in this specific type of poured in place safety surfacing system installation. The designated supervisory personnel on the project must be competent in the installation of this material, including mixing of the materials, and spreading and compacting the materials correctly.
- Installation should be in accordance with ASTM F1292-09 for Impact Attenuation of surface system under and around playground equipment. The poured-in-place system to be installed in conjunction with the Critical Fall Height as determined by the Playground Equipment to be installed in conjunction with the poured-in-place surfacing system.
- Product must be manufactured and installed by an entity or company wholly owned and operated by Arizona based principals. Such requirement shall extend to any "parent" company or entity.
- Manufacturer should provide written instructions for recommended maintenance practices.
- Manufacturer should submit color samples for customer verification.

### PART 2 - ENDURAFLEX MATERIAL

The ENDURAFLEX poured in place safety surfacing system shall be in accordance with the following:

- A dual dispenser poured-in-place system with a wearing layer, upper membrane and an underlying impact attenuation cushion layer. The finished surface shall be porous and capable of being installed at varying thickness to comply with Critical Fall Height requirements of playground equipment installed in conjunction with the surface.
- FLEXGROUND primer is a 100% solids urethane primer/sealer. It is designed with a low viscosity and penetrating abilities makes this an ideal priming urethane.
- The cushion layer shall be a mixture of black recycled SBR rubber buffings mixed with a 100% solids moisture cured MDI Polyurethane binder or aliphatic (100 pounds of SBR rubber buffings to 32 pounds of binder) installed at the appropriate thickness. The cushion layer shall be porous.
- The ENDURAFLEX wearing surface should be manufactured from 1.5 mm Thermoplastic Vulcanizated (TPV) virgin colored rubber mixed with aliphatic urethane binder (110 pounds of TPV to 32 pounds of binder).
- The system color should be selected from Manufacturer's Color Chart by owner prior to bid.

### PART 3 - SITE PREPARATION AND BASE

The ENDURAFLEX site preparation and base shall be in accordance with the following:

- The sub-base will have a slope of 0.2%.
- The base aggregate shall consist of a minimum of four inches (4") free-draining stone compacted to 95%. Finish slope of porous aggregate should be 0.2% from the centerline of the area to the perimeter and the grade should not vary more than a quarter inch (1/4") in ten feet (10').
- The sub base shall be installed in two inch (2") lifts to appropriate thickness.
- The sub-base shall be compacted using vibrating tamper, to approximately 95% Proctor density.
- The sub-grade should no longer have any vegetation.
- Subgrade prior to aggregate installation: Sublevel grade is to be compacted prior to the ABC aggregate installation. Particular attention should be paid to areas of disturbed earth such as where footers for playground equipment enter the ground. Concrete should be poured to the top of sublevel surface.
- The poured in place safety surfacing manufacturer and architect will accept the aggregate base in writing prior to the installation of the poured in place system.
- Any alterations must be agreed between all parties.
- Hard Base Construction: For concrete surfaces, shot blast, acid etch or power scarify as required to obtain optimum bond of the Cushion Layer to the concrete. Remove sufficient material to provide a sound surface, free of gloss, efflorescence, or form release agents. Remove grease, oil, and other penetrating contaminants.

### PART 4 - EXECUTION AND INSTALLATION

The poured in place safety surfacing installer shall strictly adhere to the installations procedures outlined under these sections. Any variance from these requirements shall be accepted in writing by the manufacturer's onsite representative, and submitted to the architect/owner, verifying that the changes do not in any way affect the warranty.

#### 1) Perimeter

- A urethane primer should be applied to concrete, asphalt or wood surfaces at a rate of 300-350 square feet per gallon. The entire area does not need to be primed at once; instead, prime about 700 square feet at a time. This procedure should be continued until all areas are complete.
- The urethane primer should be applied to any playground equipment that will be surrounded by the poured in place safety surfacing system.

#### 2) Cushion Layer

- The components of the poured in place safety surfacing should be mixed on site in a mixer to ensure a comprehensive mix according to manufacturer's instructions.

- The cushion layer should be mixed with SBR buffings and the MDI moisture cure polyurethane binder at a rate of 120% of the total weight of the material thoroughly so that binder is evenly dispersed into the rubber granules.
  - The cushion layer mix should then be spread and trowelled to the desired depth and allow to cure for 24 hours.
- 3) Wear Course Layer
- The wear course layer should be mixed with 1.5 mm TPV granules and aliphatic urethane binder at a rate of 20% of the total weight of the materials so the granules are covered thoroughly and evenly.
  - The wear course layer mix should be spread and trowelled to a depth of a half inch (1/2") immediately after the application of primer.
  - Where seams are required due to color change, a step configuration will be constructed to maintain wear surface integrity.
  - The finished texture should be slip resistant, smooth and even.
  - The poured in place surface should be allowed to cure for 24-72 hours or until dry to the touch.

### PART 5 - WARRANTY AND MAINTENANCE

The bidder and/or poured in place safety surfacing manufacturer must provide the following:

- The poured in place safety surfacing manufacturer shall provide a warranty to the owner that covers defects in materials and workmanship of the rubber for a period of five years from the date of Substantial Completion.
- The manufacturer's warranty shall include general wear and tear. The warranty shall specifically exclude vandalism, acts of war and acts of God beyond the control of the owner or the manufacturer.
- The bidder shall provide a warranty to the owner that covers defects in the installation workmanship, and further warrant the installation was done in accordance with the manufacturer's recommendations.
- All poured in place warranties shall be limited to repair or replacement of the affected areas and shall include all necessary materials, labor, transportation costs, etc. to complete said repairs. All warranties are contingent on the full payment by the owner of all pertinent invoices.
- The installer shall clean the joints of excess materials and if necessary backfill any excavation around the perimeter with earth or other appropriate fill material.
- The manufacturer shall instruct the owner's personnel on proper maintenance and repair of the ENDURAFLEX safety surface.

## ENDURAFLEX FALL HEIGHT CHART

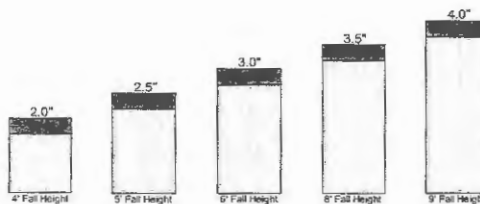

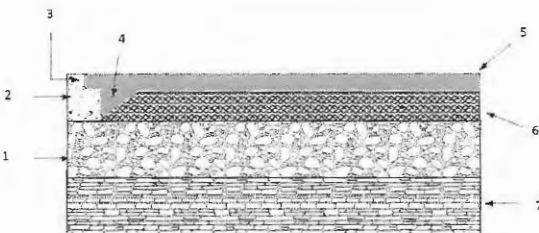

CHART REPRESENTS THE TOTAL (SBR CUSHION AND TPV WEAR COURSE) SYSTEM DEPTH

EXAMPLE: 2.0' SYSTEM CONSISTS OF 1.5" SBR CUSHION LAYER AND 1/2" TPV WEAR COURSE

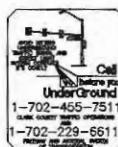

- 4" of ABC COMPACTED TO 95% (CONCRETE OR ASPHALT ACCEPTABLE)
- CONCRETE EDGE
- ALLOW 3" OVERLAP OF GYVER CONCRETE EDGES 1/2" DEEP
- 1/2" CUSHION LAYER THIN DOWN
- 1/2" (12.7 mm) TPV SAFETY RUBBER
- SBR CUSHION LAYER
- WELL PREPARED SUB-GRADE
